WE CAN STOP INTERNET PORN INVADING OUR HOMES

All Australian homes are invaded by Internet pornography. You can help us stop this atrocity. The UK has legislated that porn-users must opt-in for Internet porn. China does not allow Internet porn to be sent into their country. Don't let the Australian PM say it can't be done.

Go to www.pm.gov.au and ask Prime Minister Tony Abbott to please respect the rights of millions of Australian families who want to protect their children and stop the extremely dangerous and totally unwanted invasion of their homes via offensive, hard core and grossly obscene Internet pornography. His mailing address is Parliament House, Canberra ACT 2600. Australia Post knows who he is.

It is now well known that pornography is extremely addictive - actually changes the shape of the human brain - causes sexual atrocities to be committed, destroys marriages and is teaching all its viewers, especially our children, that women are instantly available for sex and do not deserve respect or kindness in their sexual encounters. See www.ausfamily.org for scientific studies.

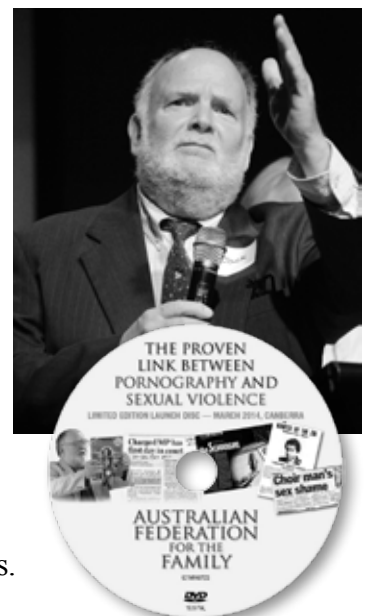

Why is it that the millions of us who don't want Internet porn are forced to deal with it? Will the PM respect the rights of millions of Australians who don't wish to be bombarded with grossly pornographic imagery by simply legislating so that those who want it have to apply for it. Simple solution to a HUGE problem (as most solutions are). Please send us his reply.

NEW DVD AGAINST PORN HELPS YOU FIGHT THE WINNABLE WAR

GOOD NEWS! Our new DVD was launched in the Great Hall of Parliament in Canberra to a crowd of about 1200 Christians at the annual meeting of the recent National Day of Prayer and Fasting conference. This hour-long DVD highlights some of the peer-reviewed scientific data proving the link between pornography and sexual violence, some of our **exciting victories** against porn and even includes a brief segment of Dr James Dobson's sobering interview with infamous serial sex killer Ted Bundy recorded just 11 hours before he was placed in the electric chair in the Florida State Penitentiary.

The final segment clearly shows what happens when "we bring Jesus into the picture." Filmed in high definition, this professionally produced DVD of one of Jack's **pornography awareness seminars** is yours for the asking and will provide you with essential ammunition to help fight this Winnable War. Please **order it, watch it, and share it widely.**

We are currently in early discussions with the *Australian Christian Channel* regarding the broadcast of this recording and will update you when we have news.

TOGETHER, WE ARE WINNING THE “WINNABLE WAR”

Over the years we have accomplished some world renowned victories against porn!

- **Bankrupted** Australian Playboy
- **Removed ALL targeted advertisers** in pornographic magazines in Australia
- **Removed porn** magazines from **Australia’s largest retailers**, corner shops, newsagents, etc.
- **Cancelled all Australian based Dial-a-Porn** businesses
- Closed several sex shops, brothels and ‘adult’ bookstores and blocked new applications
- **Changed Federal, State and Local laws** concerning porn and prostitution
- **Banned all X Rated from Australian Pay TV**
- **Protected all of our young girls** by forcing the pornographers to raise the age of their models
- **Banned the use of ‘pseudo-child imagery’** and **‘child magnets’** in ALL Aussie porn
- Worked with Police and Members of Parliament to introduce and enforce pornography laws
- Addressed Community, Police, Church, Political and Professional groups nationwide.
- **Prepared invitational Parliamentary submissions** at a State, Federal and Local level
- Addressed many National and International Pro-Family, Political and Christian Conferences

These and other significant, internationally recognised successes have come about because of the support, encouragement and participation with us in what we have always called a *Winnable War*. **God bless you for your faithful involvement.**

When Margaret and I first began this ministry we were no threat to anybody but we **forced Westpac Bank to cancel their ads in Playboy magazine**, our first victory with many more to follow. *Playboy* magazine in Australia is now bankrupt but we are **still going strong**. Praise God!

Two of our latest victories occurred in stopping brothel legislation at a State and Local Government level.

We are now continuing to raise a Godly standard against prostitution, Internet porn, magazine porn and advances by the radical homosexual activists. We are continually attempting to establish the Kingdom of God on earth as it is in Heaven.

AFF is a ministry that spends money wisely, achieving the maximum possible bang per buck. We don’t build our own kingdom, but instead **invest in empowering the man on the street** to defend his community. Acting on biblical principle, **we never baulk** in the face of an uphill battle. Your help - financial, spiritual and practical - is greatly appreciated, deeply needed and is always welcome. **Please don’t forget us in your prayers and giving.**

DANGEROUS X-RATED PORN FLOODS ACROSS NATION

Under our Constitution and according to our laws, the federal government rules the territories. One quick example is the blocking of the Northern Territory-proposed Euthanasia legislation by the Howard govt. Since the federal government DOES rule the territories, our Prime Minister could at any time and with the stroke of his pen apply the same simple restrictions on X-Rated porn in the territories as already exists in each one of our states. With the click of your computer mouse you can ask him to do this at www.pm.gov.au. His postal address is Parliament House, Canberra, ACT 2600.

Try to wrap your mind around this: in Australia, because of the harm caused by X-Rated porn, it is **illegal to sell, hire or display ANY X-Rated DVDs or videos in ANY state**. They are, however, freely available in our two territories, the Australian Capital Territory (ACT) and the Northern Territory (NT). Make sense?

Also the damage caused is so severe that **NO porn at all is allowed into Aboriginal reserves!!!** Thanks solely to our lobbying and the help of our supporters, X-Rated porn is banned from ALL Pay TV in Australia, because of the proven harm. **There is nothing good in porn, nothing at all.**

Since the **POSSESSION** of X-Rated porn is not illegal and due to the successful lobbying of the 22 people in Australia's porn 'industry' - all the 'industry' does is copy American smut videos (after all, America 'does everything best') - every Australian can order them from the territories. They are then advertised in the backs of ALL the smut magazines, like *Penthouse*, **which we then sell to our children.**

So remember, in their wisdom, the 'govt' has banned X-Rated DVDs in ALL of our states yet allows them to be freely available from our territories. A good example of 'govt' wisdom. But remember, the 'govt' is only there to protect and serve us. (!?)

Please share this if you are concerned about how pornography is grossly impacting our children's culture. If you are not, there is nothing for you here, move right along.

Also, if you know anyone else campaigning on this issue please let us know so we can join our voice with theirs. We love working with other groups when they work toward establishing Biblical standards!

VISIT OUR AMAZING NEW PROFESSIONALLY PRODUCED WEBSITE!

One of our long standing supporters took pity on our old web site and has given many hours working in conjunction with Jack (*imagine the frustration!*).

The result is a **brand new site** which runs on modern web technology and will display properly on iPads and mobile phones in addition to computer web browsers.

Wherever you are, you can always **access the wealth of information** we have collated over the years.

BENDIGO BANK SNUBS CHRISTIANS, EMBRACES ISLAM?

A group of concerned Christians in Bendigo called, "Stop The Bendigo Mosque" www.facebook.com/pages/Stop-the-Mosque-in-Bendigo/1409152012662221 had their account cancelled by Bendigo Bank and report that the bank opened the Mosque's account.

This seems a direct stand against Christianity and for Islam.

If you bank with BB you could be helping them finance this atrocity. You can contact them, Postal address: PO Box 480, Bendigo, Victoria 3552.

Phone them on 1300 BENDIGO (03 5445 0666)

You can also email them via CustomerContactandCareMailbox@bendigoadelaide.com.au

QLD GOVT APPROVES PENTHOUSE FOR SMALL CHILDREN

The LNP government of Campbell Newman in Queensland allows children of all ages to have unrestricted access to Penthouse magazine and other porn magazines in the family marketplace. This is bad. **The only way to correct something bad is by doing something good** (Gal 6:9).

Contact Premier Newman thepremier@premiers.qld.gov.au, his Attorney General and any and all MPs at Parliament House, Brisbane 7000. You can also go to www.ausfamily.org, click on 'Take Action', then click on 'Politicians' to email them and get all their contact details.

Please ask Queensland MPs to recognise that children are damaged, some irreparably, by dangerous, premature exposure to extremely addictive, highly graphic, and grossly obscene pornographic imagery. Children are rightly protected from other addictions, **why are they not protected from this addiction?**

Sample letter:

"Dear Sir/Madam,

Why does your government continue to allow small children to be harmed by free access to the blatant display and legal sale of porn in the family marketplace? Will you please help correct this problem?

Please reply soon as all of my friends/church members/etc. are interested in your response."

This is all you have to say but it is extremely important, will only take a few minutes and will help convince the Qld government to protect our children and grandchildren. **We have to make this a political issue.** The politicians do not care otherwise.

As well as the Queensland Premier, Attorney General and Minister for Child Safety, I have contacted all the ladies in the Qld state government, **not one has responded favourably.** Sadly the women seem to be mimicking the men who all tell me, "this is a federal problem", "you are not in my electorate", **"Queenslanders don't care about children accessing porn"** and other such nonsense.

If you have ANY influence with **other Christian activist organisations in Qld** please encourage them to join with you in this simple letter writing campaign and **PLEASE CONTACT MPs!!!!!!!**

For some reason other groups object to underwear ads on billboards and beer ads at bus stops but refuse to join our active and ongoing campaign to protect children from the well-known damage caused by unrestricted access to pornographic imagery. Perhaps you can sway others to join their voice in this specific battle in the "Winnable War".

WHY YOU ARE MORE POWERFUL AND EFFECTIVE THAN YOU EVER THOUGHT

Remember, you represent Jesus, himself, when you address these issues. Winning the battle is up to Him, speaking out is up to us; we are just following orders.

You join your voice with many, many others when you take the actions we recommend. As you speak to a retailer, to a politician or to a business or church leader you are actually taking Jesus into the situation. The war is winnable but it must be fought to be won. When we address our culture, as Christ desires all of us to do, we act responsibly as His voice.

When we take Him into the picture, the picture changes - always and every time - He remains the same! So remember it is more than just writing a letter or email, or speaking, phoning or visiting - we are actually acting as the voice of God! This is the way God planned it and His plans always work! That is why we have always called this a Winnable War!

Please be thoughtful and considerate as you write, praying at all times. Don't be embarrassed to pray over your communications. When you pray **and act**, God comes in the picture ... and things happen.

MOSQUES BAD FOR AUSSIE WOMEN ... & EVERYONE

The now-unhidden goal of Islam is Sharia. Women cannot enter the front door of a Mosque, a woman cannot pray with the men at a Mosque - they are allocated a small, broom-closet sized room; a woman has to have at least four male witnesses to prove she was raped, a woman's word is not equal to a man's word in court, even Great Britain has just legislated for Sharia so that a Muslim woman has no right to inherit her husband's (or any man's) property. ***What part of woman-hating Islam don't our Councils understand?***

It is proven that these, and other atrocities, are what Islam has for all women in Australia. **THEY CAN'T EVEN ENTER THE FRONT DOOR OF THE MOSQUES THAT ARE PLANNED FOR OUR FAIR CITIES.** Why aren't the feminists in an uproar, as Christians certainly should be? **We are supposed to resist evil NOT embrace it.**

Please contact your local MPs (you can use our website, www.ausfamily.org, and contact everybody) and let them know **women are victimised by Islam**, they are certainly not empowered by this misogynistic, satanic, totalitarian ideology.

Ask your state MP how you should best speak to your local council about this very important issue.

Tell them all your friends/church members/family members/club members feel the same way and want to know how to address this problem. Islam teaches subjugation not integration and should not be welcomed or embraced by any of our city, local or state governments. **Media reports across the nation prove just how Islam is harming Australian women, children and our Western Culture.**

SODOMY AND 'GAYTMS' SPONSORED BY ANZ BANK

AFF has been built by defeating many Goliaths in Australian industry; ANZ bank is just another industry giant. ANZ bank was the major sponsor for Sydney's annual public celebration of sodomy, even **renaming some of their ATM's** in the central Sydney area "GAY TMs". All of the sponsors of the gay and lesbian Mardi Gras are listed on our new, professionally produced website.

ANZ bank has been our bank for many years and we are now in talks about cancelling all of our activity with them over this immoral issue. We are **NOT** to participate in the unfruitful deeds of darkness but rather God commands us to expose them (Eph 5:11). Ask them to no longer sponsor this annual public celebration of sodomy. Let them know you would take your banking elsewhere.

Send us their replies. Email feedback form: www.anz.com/common/forms/default.asp?intID=174

Postal address: Level 14, 100 Queen St, Melbourne, VIC, 3000 Freecall: 13 13 14 Phone: (03) 9273 5555 Fax: (03) 9273 6142

Martin Luther said "The fact that we may not succeed should never deter us from doing what is

right." It is right for us to make as strong a stand as possible against the public display of this gross perversion. If ANZ responds favourably or not is not the issue. **The issue is doing what is right.** James 4:17 says, "To him who knows what is right and does not do it to him it is sin." BTW ANZ **will** do what is right!

AFF: ACTIVELY ACHIEVING ITS GOALS IN OUR CULTURE

Over 20 years ago we wrote out our '10 Point Plan'. Most all have been achieved.

1. We achieved lifting the age to appear in porn to 18.
2. We banned all pseudo-child imagery.
3. We banned all Cartoon Characters (child magnets) in all porn.
4. Ban the sale of all porn to under-18s. We are currently working on this in QLD.
5. Ban the display of porn to children. This has been accomplished in some states.
6. All pornography to be removed from and no longer sent into Federal and State prisons where sex offenders are incarcerated. (?)
7. Sex offender registration laws to be implemented. (partially completed)
8. Banning X-Rated porn from the territories flooding into the states. (Current campaign)
9. Displaying porn to children in the family marketplace. (Partially achieved - current campaign)
10. Enact a law in each State that requires police to record when sex offenders are arrested providing a space to record whether porn was involved. (Current campaign)

None of these could have been achieved without your help, support, finances, encouragement, prayers, telling others, active involvement and spiritual support. Please keep it up.

MORE FOLKS NEEDED IN THE WINNABLE WAR

We are always encouraged by the successes we see in this 'Winnable War' but as you well know, much more needs to be done, and can be done easier with more people. We really need some financial support at this time and, as you also know, ours is a faith ministry. Anyone who requests our material gets it. We simply ask folks to send us a donation if they can. **I also need to increase our mailing list.** Please pass this info on to others and encourage their participation.

I am including 2 issues of our newsletter for you to pass one onto like-minded friends. Your pastor may be interested in our Good News. As more of us speak, we will see victories sooner. Since most of those we deal with in politics or industry are

unprincipled people, it is the numbers of complaints that cause them to take action.

A partial list of some of our successes is included so you can encourage others with our victories.

Thanks so much for helping us bring Jesus into our culture.

Remember, the new DVD is yours for the asking! God bless you for your help.

WHAT'S WITH THE DOTS?

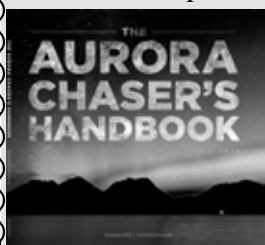

Times have changed and now over half of visitors to web sites are using a mobile device such as an iPad or a "smart phone".

These grids of dots (or pixels) are readable by these devices, saving the tedium of typing in an address just to visit a web page. These Quick Response (QR) codes make it a snap to jump in to action from where you are sitting right now.

Got an iPad or Android phone handy? Use the "barcode scanner" or "QR Code reader" app on your phone and discover just how easy it is.

To help us raise funds Margaret has published a magnificent book, "The Aurora Chaser's Handbook: in Pursuit of Tasmania's Southern Lights" and it is on its second printing! It is a great gift for anyone interested in the beautiful

aurora australis. Check it out at aurorachaserbook.com and if you order it from me, not the website, I can get you a \$5 discount or \$30 postpaid.
